From "I'm in" to Live & Working in 48 Hours

Here's exactly what happens after you say yes — every step, what we need from you, and what you'll have at the end.

⚡ 48-hour setup 🤝 We do all the work ✅ You approve before go-live

🔄 Free tweaks for 30 days

Day 0	Hour 2	Hour 24	Hour 36	Hour 48	Day 7
You say yes	Onboarding call	First draft ready	You review & approve	Go live 🚀	First leads captured

1

DAY 0 — WITHIN 2 HOURS OF SIGNING UP

Welcome & Onboarding Call

📞 30 min call

We schedule a 30-minute call to learn everything about your business. This is where we gather everything we need to build your AI assistant. You don't prep anything — just talk to us like you'd talk to a new employee on their first day.

🏢 Business Info

- Business name & tagline
- Service area / cities
- Business hours
- Emergency availability?
- Website (if any)

🔧 Services & Pricing

- List of all services offered
- Price ranges per service
- Service call / diagnostic fee
- Any packages or specials
- What you DON'T do

💬 Tone & Personality

- Formal or casual tone?
- Any phrases you always use
- How to handle complaints
- Preferred name (owner/contact)
- Sample of a past customer reply

✅ After this call, we have everything we need. You don't need to do anything else until we send you the draft.

2

HOURS 2–24 — WE BUILD IT

AI Configuration & Training

We do the work

Our team builds and trains your custom AI assistant using everything from the onboarding call. We write all the conversation flows, program the responses, set up the booking system, and connect your channels. You don't touch a single thing.

AI Training
We program your services, pricing, FAQs, emergency flows, and booking logic into the AI

Channel Setup
Connect your SMS number, website chat widget, and any social channels you want covered

Booking System
Set up appointment capture, confirmation messages, and calendar notifications for your team

Alert System
Every new lead triggers an instant notification to you — text, email, or dashboard alert

Emergency Flow
Special urgent response path with your emergency line, safety instructions, and priority handling

Brand Voice
The AI is tuned to sound like your business — your tone, your name, your style. Not generic robot-speak

At the end of this phase, you have a fully configured AI assistant ready for your review. We send you a private test link.

3

HOURS 24–36 — YOUR TURN (30 MINUTES)

Review, Test & Approve

You test it

We send you a private test link. You chat with your AI like a real customer would — ask it questions, try to book an appointment, test the emergency flow. If anything is off, tell us and we fix it within a few hours. This is YOUR product — it has to be perfect.

- Test 5–10 common customer questions — does it answer correctly?
- Try booking an appointment — does the flow feel natural?
- Test the emergency flow — is it fast and clear?
- Ask about pricing — are the numbers right?
- Does the tone sound like your business?
- View it on your phone — does it look right?

Once you say "looks good" — we flip the switch. Any tweaks you need are done within 4 hours, no charge.

4

HOUR 48 — GO LIVE 🚀

Launch Day

You're live!

Your AI assistant goes live on your phone number, website, and connected channels. From this moment, every text, every missed call, every DM gets an instant intelligent response — 24 hours a day, 7 days a week. You go back to doing your job. The AI handles the rest.

SMS Goes Live
Your business number is now connected. Every text gets an instant reply

Website Chat Active
Chat widget appears on your site — visitors can chat immediately

Dashboard Access
You get login to your dashboard — see every lead, conversation, and booking in real time

Lead Alerts Active
Every new lead sends you an instant notification so you can follow up fast

Most clients capture their first missed lead within the first 24 hours of going live.

5

DAYS 7–30 — OPTIMIZATION

Tune, Improve & Expand

Gets smarter

After the first week, we review how the AI is performing — what questions customers are asking, what's working great, and what could be better. We tune the responses, add anything that's missing, and suggest upgrades based on real data from your customers.

- Weekly performance review — leads captured, response rate, booking conversions
- Any new FAQs customers asked get added to the AI
- Conversation quality review — fix any awkward responses
- Expand to additional channels if needed (Facebook, Instagram, WhatsApp)
- Review request flow activated — happy customers get asked for Google reviews
- Monthly check-in call — 15 minutes, make sure everything is running perfectly

🎯 By day 30, your AI has handled real customer conversations and is tuned to your exact business. It gets better every week.

6

DAY 30+ — THE RESULT

Happy Customer. More Referrals. More Revenue.

🎉 ROI achieved

Your AI is running smoothly, capturing leads around the clock, booking jobs while you sleep, and making your business look more professional than ever. Customers love the instant responses. You love the extra jobs. And you start telling other business owners about it.

This is the goal 🎯

A client who's so happy with the results that they become your best salesperson.

"I used to miss 3–4 calls a day when I was on jobs. Now my AI handles everything. Last month it booked 6 jobs I would've completely lost. Paid for itself in the first week."

— Carlos M., Suncoast Plumbing · Tampa Bay, FL

🤝 **Happy clients refer other business owners → your client list grows without cold calls**

Ready to get started?

The whole process takes less than 48 hours. You don't need any tech skills.
We handle everything — you just approve and launch.
